What does the future hold for gastrointestinal cancers?

Pioneering treatments in gastrointestinal cancers. Our evening of the latest clinical research innovations and what this means for cancer care and treatment took place in November 2018.

We were delighted to welcome 187 attendees to our inaugural public and patient engagement event for the gastrointestinal cancers research theme. [Review the event programme](#) ^[8][here](#) ^[8], and [view the event impact infographic](#) ^[9][here](#) ^[9]. Our research into smarter, kinder treatments is applicable to patients not just at The Royal Marsden, but across the UK and rest of the world. To promote wider engagement, all presentations were recorded and are available below.
