NIHR Academy Resources

NIHR Biomedical Research Centres (BRCs)

The NIHR?s 20 Biomedical Research Centres (BRCs) are collaborations between world-leading universities and NHS organisations that bring together academics and clinicians to translate lab-based scientific breakthroughs into potential new treatments, diagnostics and medical technologies.

The centres receive substantial levels of sustained funding - £816 million over five years - to create an environment where experimental medicine can thrive. They attract the best scientists and produce world-leading research, contributing to the local and national economy.

NIHR Training Advocates

?NIHR Training Advocates are ambassadors for non-medical clinical academic careers. The BRC has two advocates:

- Nursing: Dr Theresa Wiseman [9]

-

Dietetics and Nutrition: Dr Linda Wedlake [10]

NIHR Fellowships

NIHR Fellowships [11] have been designed to support people at various points of their development to become leading researchers, from initial pre-doctoral training to senior post-doctoral research.

Find out more about the four different types of Fellowship available [12].

Clinical Research Practitioner (CRP) Directory

?The Directory is a collaboration between the NIHR and the Academy for Healthcare Science. The NIHR Directory for Clinical Research Practitioners has been established to create a

community of practice as a foundational step in defining the professional identity of this diverse group. Work is currently being taken forward jointly by the NIHR and the AHCS and aims to establish a Professional Standards Authority Accredited Register for CRPs.
